

APOLLO GOLD 929

Experience a classic that is flexible and user-friendly to meet your daily paging needs. It's your pager, calendar, notebook and alarm clock all in one. The Apollo Gold text pager offers the latest and most efficient paging technology available and is PC or hand programmable. With the ability to hand program this pager, it has become a favorite of our clients. Managing group CAP codes could not be easier! The blue back light is another favorite feature.

FEATURES

- This pager is PC or hand programmable
- Up to 6 CAP codes can be programmed for group paging
- Selectable page scrolling

DISPLAY

- The large blue back lit screen is easy to read in any light conditions
- 4 lines, up to 84 character one page display
- Zoom feature allows you to zoom from 4 lines to 2 lines for larger viewing
- Real time clock programmable to 12 or 24 hour format
- Month, day and year display

INDICATOR/ALERT

- The battery indicator displays the strength of the battery so you know when to change it.
- 4 beep alerts, 10 melody alerts, vibration or sleep allows you to customize your alerts as needed
- Unread message reminder alert will make you aware of any missed messages
- 5 daily alarms sets

MESSAGING

- Duplicate Messaging: If the same message is received more than once, duplicate sign is displayed at the beginning of the latest message. This message contains the latest time stamp and prevents a repeated message from taking an extra memory slot.
- Message Erase: Messages can be erased all at once or selectively at your choice to free space in memory. You can protect up to 8 important messages by locking them.
- Memory Capacity: 16 messages can be stored with up to 28,672 Letters.
- Time Stamp: The time and the date of a message received are displayed on the screen for each message. Extra long battery life.
